Monsoon retreat - DISCOVERY First
Homes Khandala , India

True Monsoon Retreat designed in
response to site conditions:
evergreen courtyards, skylights
blur the indoor-outdoor
boundaries.

Set in the picturesque hills of
Khandala, just outside Mumbai, this
villa is part of a gated community
of 21 second homes with a
community centre designed on a
water bed, giving it a resort feel.
These are signature spacious villas
with private swimming pools and
evergreen gardens. 400 additional
trees have been planted in the
property gardens.
